Section 4: First-Aid Measures

4.1. Description of first aid measures

Eye Contact: Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid, if irritation persists.

Skin Contact: Get medical aid if irritation develops or persists. Flush skin with plenty of soap and water.

Inhalation: Get medical aid if cough or other symptoms appear.

Ingestion: Get medical aid if irritation or symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/Injuries: Irritation to eyes. Eyes become sensitive or painful when exposed to light. Skin becomes dry, feels cold, causes discoloration, and skin turns red.

4.3. Indication of immediate medical attention and special treatment needed

Consult a physician or contact Poison Control Center if chemical solution is ingested in large amounts. Physicians are required to treat victim symptomatically and supportively.

Section 5: Fire-Fighting Measures

5.1. Suitable Extinguishing Media:

Use dry chemical, water, foam, or carbon dioxide to extinguish fire.

5.2. Fire Fighting Procedures:

Do not flush down sewers or other drainage systems. Exposed firefighters must wear NIOSH-approved positive pressure, self-contained breathing apparatus with full-face mask and full protective clothing.

5.3. Unusual Fire and Explosion Hazards:

No unusual fire or explosion hazards noted.

5.4. Combustion Products:

Thermal decomposition or combustion may liberate carbon oxides (CO₂, CO) or other toxic gases or vapours.

Section 6: Accidental Release Measures

6.1. Personal Precautions, Protective Equipment, and Emergency Procedures

Wear proper personal protective equipment as indicated in Section 8. Follow instructions listed in Section 6.3 to follow clean up procedures.

6.2. Environmental Precautions

Follow all government regulations for waste disposal. Prevent release to the environment if possible. Do not flush waste into sewer or waterways.

6.3. Methods and Materials for Containment and Cleaning Up

Small Spills: Absorbent pads or paper towels may be used for small spills of less than 1 liter. Wipe up small amounts with

pads or towels and wash them with large amounts of water after each use. After cleaning, flush away traces with water.

Large Spills: Absorb with earth, sand, or vermiculite, and place in closed container and hold for waste disposal.

Section 7: Handling and Storage

7.1. Handling

For intraoral use only by trained and experienced dental professionals. Follow good hygiene practices. Do not smoke, eat or drink while using. Use suitable protective equipment when handling. Wash thoroughly after handling and avoid any chemical contact with eyes, skin, and clothing. Keep container tightly closed to avoid inhalation or accidental ingestion. Use with adequate ventilation when necessary.

7.2. Storage

Store in a tightly closed container. Store container at room temperature in a cool, dry, well-ventilated area away from incompatible substances. Keep containers upright when not in use. Shelf life is twenty-four months from date of manufacture, provided that it is stored properly. Store at room temperature between 18°-30°C (65°-86°F).
